TESSERE was born from the act of resilience, courage and passion conceived by a group of well-known Italian experts in the industry.

The result is a dialogue between historical heritage and emerging ideas and techniques that will drive the future of design filtered by an artistic vision.

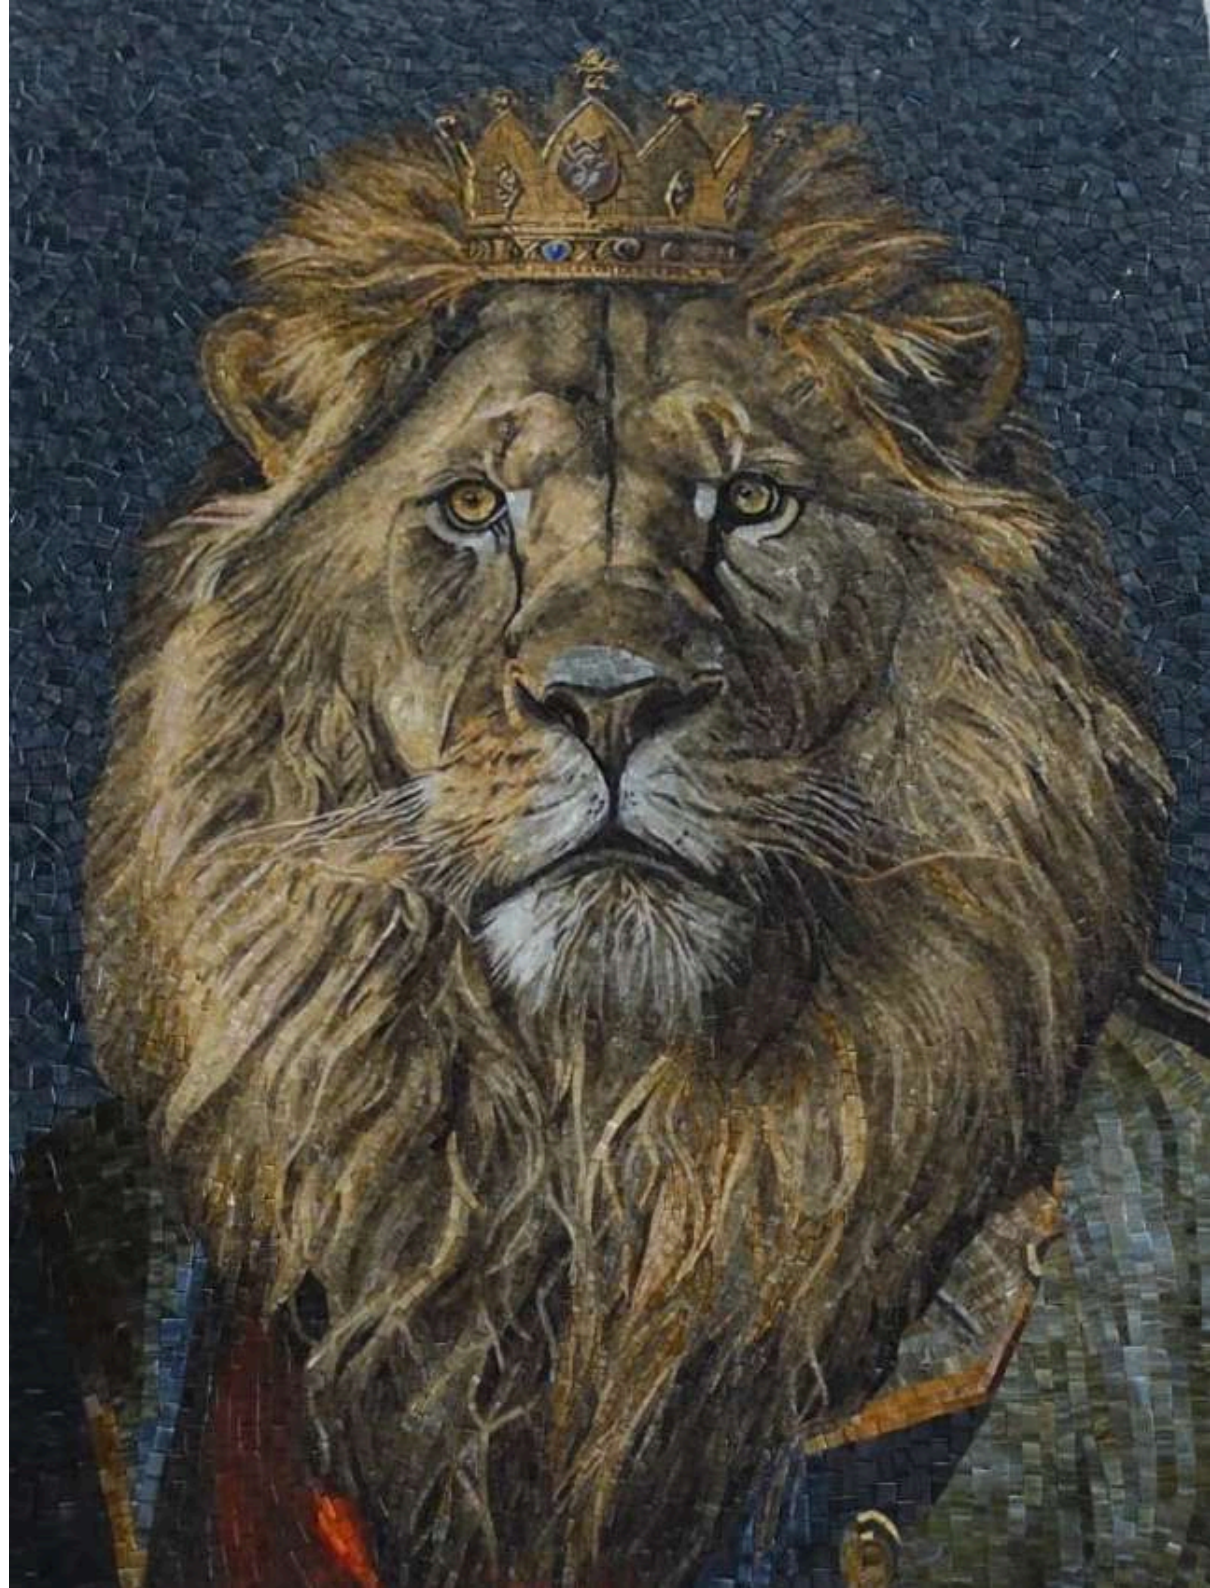

Translating the beautiful subtleties of the natural patterns surrounding us, into artworks by exploring the mesmerizing interplay of colors and light to create timeless elegance.

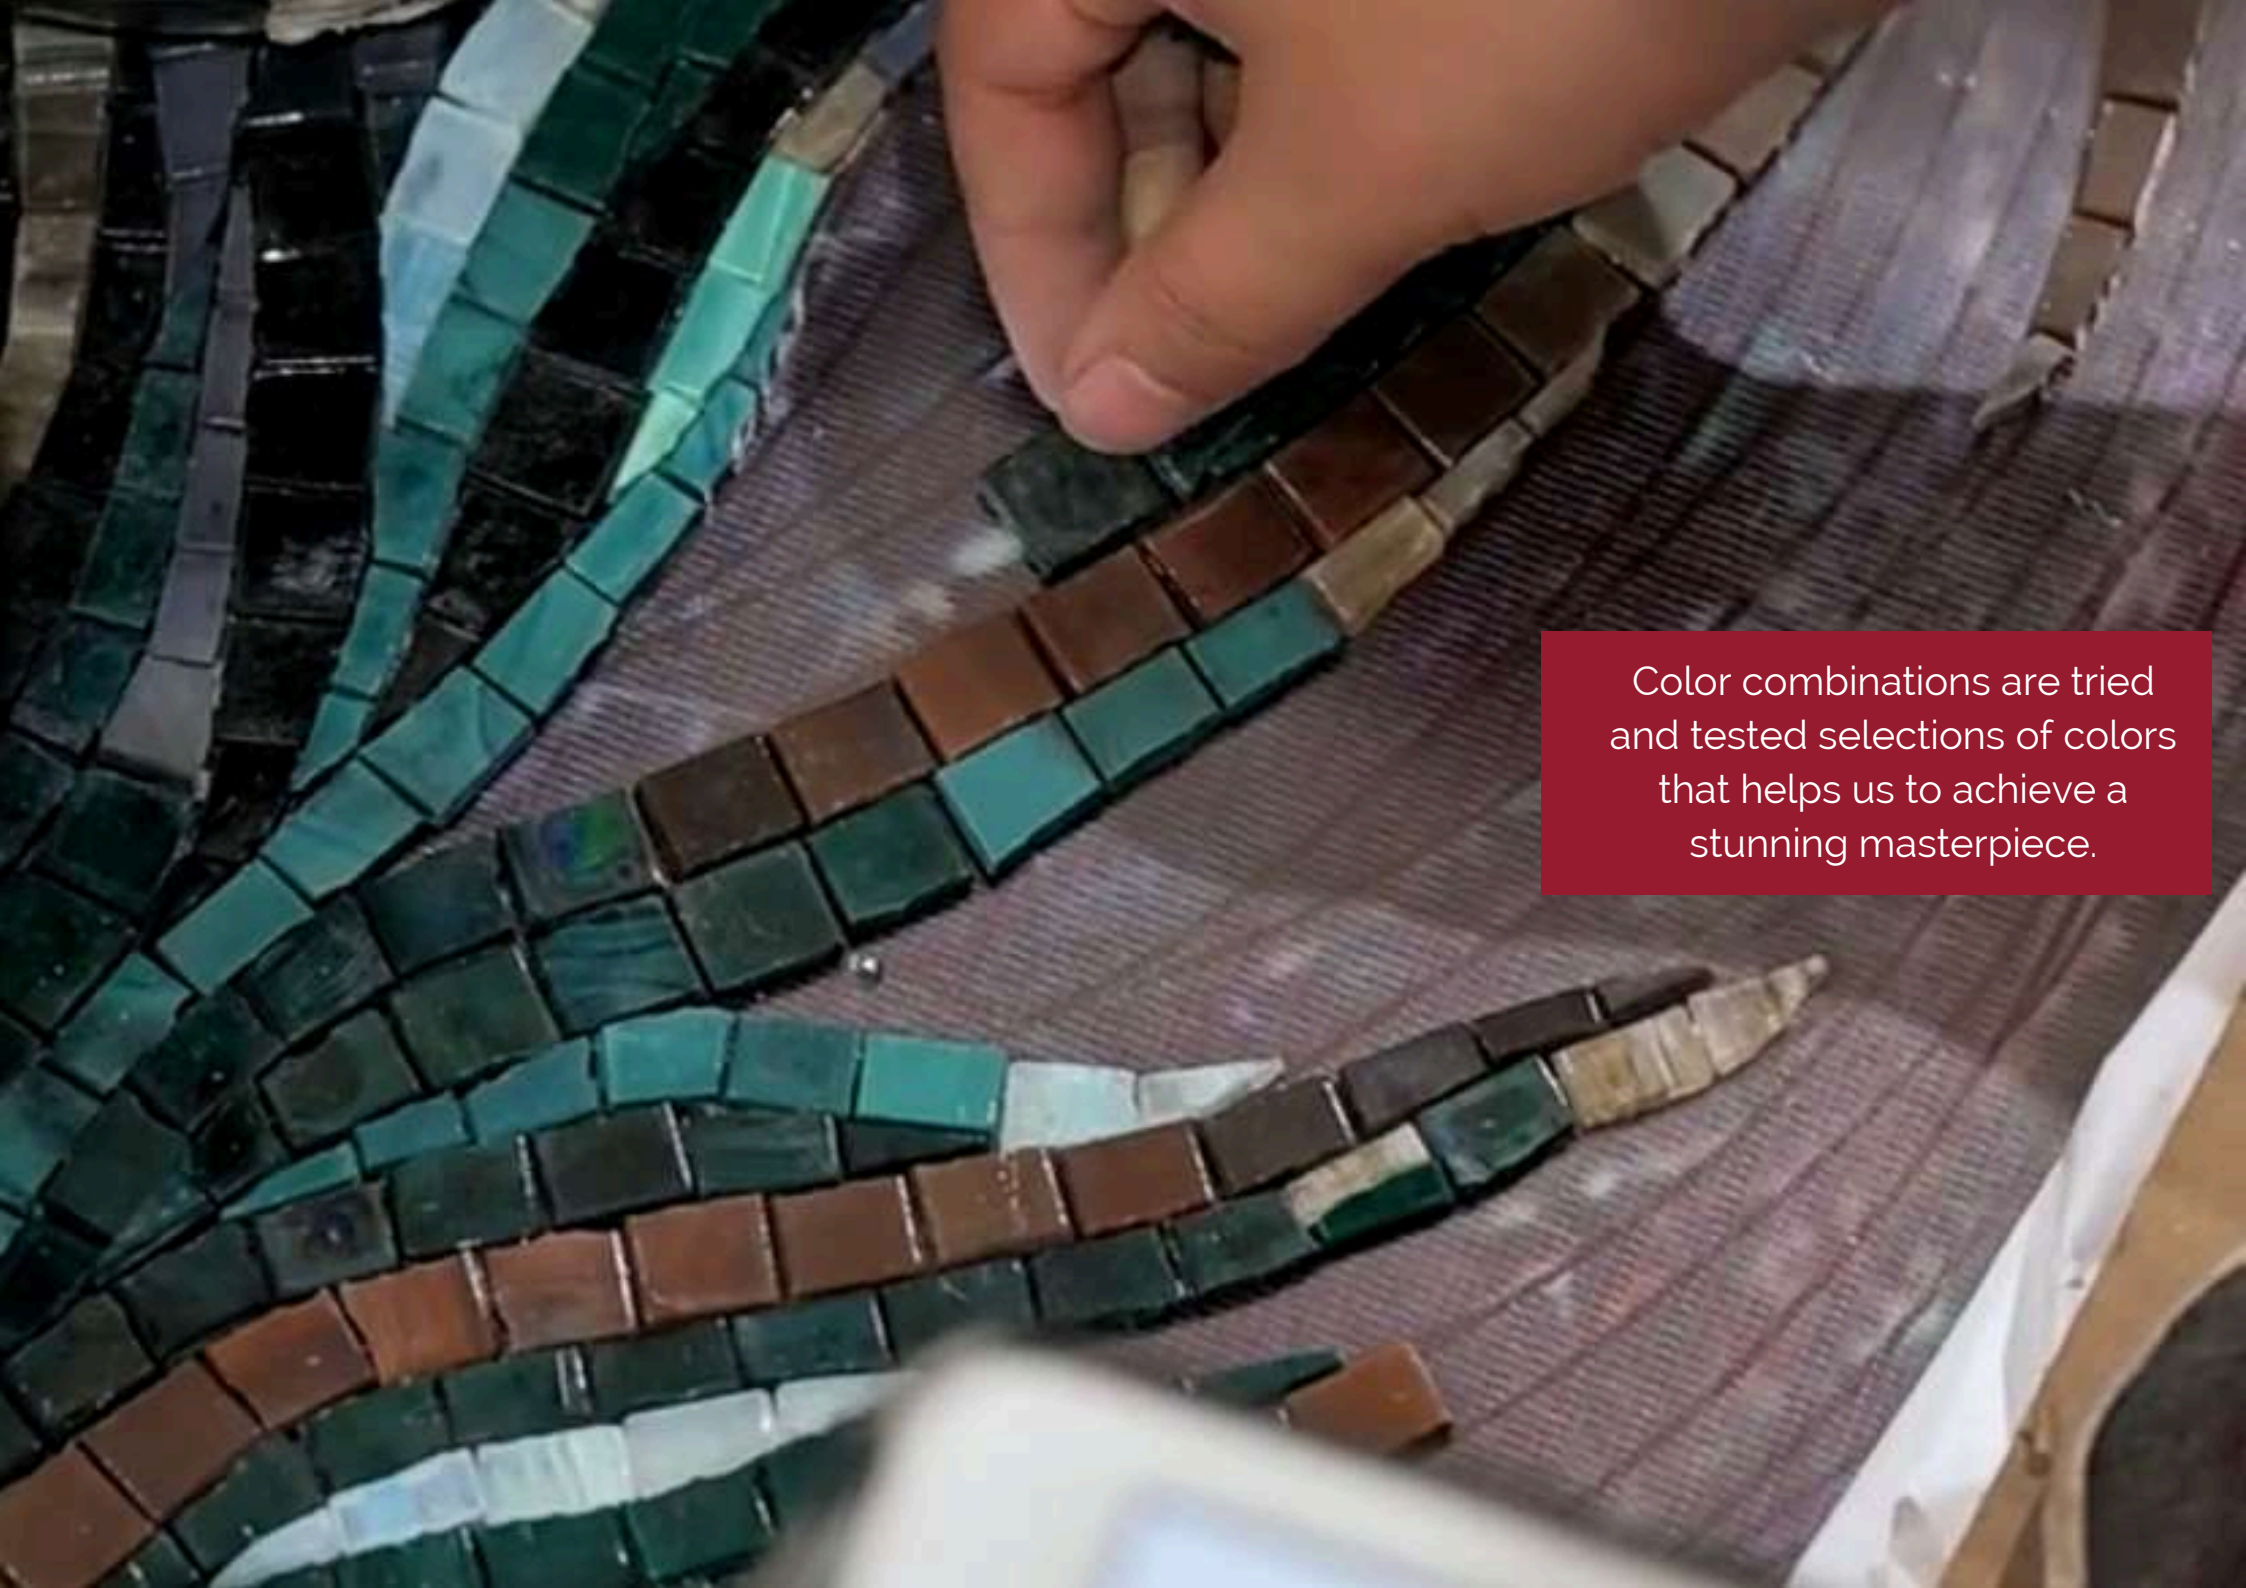

Through collaborations with emerging global artists pushes the creative boundaries to create distinctive architectural solutions.

At TESSERE we aim to reinvent the ancient art by pushing the boundaries of mosaic as a material.

Some of our mosaic decor put a modern spin on the styles of the past while others recreate their own medium by combining sculpture, installation and materials.

Color combinations are tried and tested selections of colors that helps us to achieve a stunning masterpiece.

Our world-renowned mosaic
artist can turn into a
masterpiece any of your design
or photograph.
